DR. BENJAMIN THOMSON, the Founder of the Thomsonian Botanic Infirmaries in Boston, Massachusetts, and Concord, N. H., and more recently from the State of Virginia, having long had a desire to establish an Infirmary in this Metropolis, takes this method of informing the public that he has gratified that desire, and has fitted up in a style unprecedented in this city (or perhaps any other except his Infirmary at Concord, N. H., which has been pronounced the most perfect one in the world) fire above desirable house, on the same plan with his Indemaries in the East and South, where his patients can depend on such treatment as their infirmities may demand. depend on such treatment as their infirmities may demand.

To my friends, and the friends of the system, I need but say that I am here. They have, no doubt, seen my prospectures and my practice spoken of, in all the Thomsonian periodicals in the United States, and my unprecedented success in the places where I have heretofore practised. The system is still progressing with rapid strides,
and producing a complete revolution in the medical world.

For the benefit of the public, Dr. T. gives the following extracts, relative to his practice in the places
where he has established infirmaries:

BOSTON .- Extract from Advertisement .- " Since April, 1832, up to May, 1834, he has administered upwards of two thousand courses of Medicine to more than fifteen hundred patients, visiting from six rods to six hundred miles distant, in almost everystage of disease, the greater part of whom have been cured. Patients given over to die at the New York, Philadelphia, Massachusetts, New Brunswick, and Incane hospitals, have been cured at my Infimarics. One, and only one death, has occurred at my Infirmary, since its establishment; and \$1000 is here offered to any individual who will prove to the contrary; also, \$1000 to any individual who will prove as great an amount of business to have been accomplished during the same time at any hospital in Europe or America, with the occurrence of a less number of deaths and more cures."

the occurrence of a less number of deaths and more cures."

CONCORD.—Extract from a Letter to a United States
Senator, dated January 1, 1835.—"Dear Sin:—There
appears to be considerable excitement here at present. " " " A new era seems to have commenced in medical science. Dr. Thompson has indeed
done wonders in the heating art. He has performed
curet in the absence of all hope of patients, friends and
regular physicians. Of the many cases he has had, a
few have come to my knowledge which justice compels few have come to my knowledge which justice compels me to mention.

"A young gentleman who had been out of health for several years, and who I understand was at the Infirmary the same time you was, and in consequence of your advice took one course of medicine, declared, as I am informed, that he received more relief in 15 mlnutes, under the operation of the Botannic Medicines, than he had before for four years, when under the charge of the most eminent physicians of the State; a few days after he took another course and was cured. A gentleman by the name of Marden from Chichester, who had been afflictname of Marden frem Chichester, who had been afflicted with dyspepsia and all its attendant train of evils for several years, came to the Infirmary with the intention of remaining one week, and was, agreeably to his own declaration, cured in one day, and was enabled to return to hit femily the third day efter he left them, a well man. This case, I understand, has caused considerable excitement in Chichester and the neighboring towns. A young lady, a deployable case of mental days present several in lady-a deplorable case of mental derangement-cured in one fortnight. A lady from Loudon, who, at the age of seven years, suffered severely from a paralytic slock, after which she was affected with fits and falling sickness after which she was affected with his and failing sickness for 25 years, and was affended, without any benefit, by 17 regular physicians, came to the Infirmary, took 2 courses of medicine, and was enabled to make a hearty meal of animal food, of which she had not been able even to taste for ten years, remains well, and able to labor at the pre-

sent time.
"Dr. Thomson's success in fevers has indeed been great. He has taken patients from almost all the regular physicians here, and restored them, to health in a few hours, although some of them were thought to be dangerously sick by their friends and medical attendants, and no prospect of recovering under six or eight weeks, if they did at all."

PETERSBURG, VA .- Extract from Certificate .- "We, the undersigned, do hereby certify, with much pleasure, that we have visited the Thomsonian Infirmary, recently established in Petersburg, on the Thomsonian plan, and believe that no one is better calculated to do it justice, and to help the afflicted, than Dr. Thomson. We have taken his medicines, and have seen them repeatedly given with manifest advantage, in a number of cases where the patients were quite ill. His peculiar manner of mixing them goes to make them agreeable and palatable, and his seeming skill in timing and proportioning the doses to the age and strength of the patient and disease, met our warmest admiration. His vapor and medicated baths are warmest admiration. His vapor and medicated baths are truly luxurious, and are given in the most delicate and agreeable way, and are perfectly understood by the female attendants, under the direction of Mrs. Anson and Doctor Thomson. The whole process, from what we have seen and experienced, may be undergone by the most timid lady or delicate child, without the least apprehension of the great any point of views, on the contrary with most danger in any point of view; on the contrary, with much advantage, when it is needed. We would recommend all the afflicted to the Thomsonians, and to the Petersburg Infirmary, believing firmly that it is a great place for the

cure of all curable diseases.

SALLY G. STURDIVANT, | MARTHA LILLEY. ELIZABETH NIBLETT, MARTHA P. CLARK, 127, Sept. 21, 1837. Ann Miles. Petersburg, Sept. 21, 1837.

"Petersburg, September 18, 1837 .- Dear Sir :- Health is the greatest temporal b is essential to his comfort and happiness. that the system of medicine invented by Samuel Thom-son, is the safest and most efficacious means, rightly understood and properly carried out, as a curative system, ever adopted. We are bound to exercise that reason ever adopted. which is given to us for our government and direction, to pursue truth, and hold to it, and never to give up any known plain matter of fact for conjecture. I saw several of your patients, heard of several cases, and witnessed several; I saw your care and attention to the afflicted under your immediate charge, and this had a great effect under your immediate enarge, and this had a great effect upon me; but the cure of my dying boy has cast the scales from my eyes, satisfied my judgment, and confirm-ed it. His case was a most serious hopeless one. I had given him over to die; his jaws became fastened; he was seemingly dead to all sensibility; his pulse, which be-fore had not abated for sixty hours, was now nearly gone; he was fast approaching the embrace of death. To my great astonishment, you, in a short time, relieved and restored him to health. This and a number of other cures have convinced and satisfied me that it is the best and

most sale practice I have ever seen carried out.

"My boy was at first taken with a chill, succeeded by a severe fever, and he was completely out of his head for three days before you saw him. He was in spasms and insensible when sent to your Infirmary. The practice, according to the regular mode, was exhausted, but the efficacy of your medicine, and the vapor bath, had so se lu-tary an effect, that he was truly and astonishingly, and unexpectedly to me and all my family, also to the ast'onishment of every person who saw him, soon restored to life and health. I feel bound to confess the fact, and re-commend to all opposers of the system the propriet y of knowing correctly what they do oppose before they scon-demn, and do recommend the practice to all who have lost their health, and the afflicted to your tender care.

FRANCIS PACE :. "We, the undersigned, members and connexions of Mr. Pace's family, do hereby certify that we are acquimited with the boy Mr. Pace speaks of, and saw him during his illness, and that every particular relating to his cure,

kc., which Mr. P. mentions, is confirmed by us.

ELIZABETH P. PACE, | CARTER C. CONWAY,
WHINERY PACE, | ELIZABETH SMITH, "

In addition to the above extracts, which cannot be expected to convey full information on the subject, but the full documents of which can be seen (together with my large, and the apartments) at my Information. mode of practice and the apartments) at my Infirmary; mode of practice and the apartments) at my intimary; and it being generally conceded by the public that it ere has been many cures effected, great good done by this system, and that the medicines are allow in to be the most agreeable and most effectual that are administered. but that the practitioners are generally inexperienced.—I would here merely state that, having administered more than ten thousand courses of medicine in Concord and Boston, during which time I lost but one patient, it must be acknowledged that my experience is not small, and be acknowledged that my experience is not small, and that I know how to treat the numerous diseases to which

he human system is liable.

63- PRIVAVE APARTMENTS, with female attendants, are provided and set apart for ladies, where all complaints peculiar to females are successfully treated. Also, other apartments for people of color. In all cases, every attention will be rendered that can ease the afflicted or ensure a cure to the diseased.

N. B. The demand for Thomsonian Practitioners is continually increasing, and gentlemen of respectable charac-ter, coming well recommended, can be admitted to the Infirmary as students, on reasonable terms, where they can enjoy all the advantages of Dr. Thomson's experience, and have access to the best medical library in the world. In cases where a course of medicine is taken, a change of linen is necessary. No accounts will be opened-payments must in all cases be made in advance. Nov. 9-18-tf

ARGEST AND CHEAPEST FAMILY NEWS-PAPER IN THE WORLD!!—Since the estab shiment of ALEXANDER'S WEEKLY MESSEN s the largest and cheapest paper in the world! To rener this truth more obvious to the public, and to place ompetition at a still greater distance than it yet has een, the Proprietor will commence a new volume at he beginning of the year very considerably enlarged and approved as regards its Typographical as d Pictorial apearance, and the Literary reputation and interest which ill be introduced into its columns. In this latter respect. e first number issued in January, will convey a speci-en of the zeal with which the Proprietor will prose-ite his anticipated alterations! It will be printed on a ouble Sheet twice the dimensions of any paper is-ed in Philadelphia—will contain all the choicest effu-ons of the English and American Annuals for 1840! id will comprise Six'y four columns of close print, esening as much reading matter in one paper as would a large Octavo Volume, and a variety of original ose and poetical contributions will be selected for pubation on this occasion—besides, there will be introdu-i from Ten to Twenty Engravings illustrative of most interesting topics which will be here brought ether. The Publisher will commence the year with IMMENSE EDITION, in anticipation of the extensive rease which will take place in his Subscription List ind he again renews his request to those who contemte forwarding him their names, to do so at once, that may enter them in the Mail Books in proper order, prevent confusion or the possibility of any mistake in ismitting the paper promptly to every one as soon as ones from the Press!

IM P'ROVED SURGEON'S TRUSSES, for the radicure of Hernia, or Rupture, by HEBER CHASE,

The committee of the Philadelphia Medical Society, for the investigation of the radical cure of Hernia, ob-

"Fully impressed with the extreme caution required in forming conclusions concerning changes of structure taking place in parts of the body concealed, not only by the integuments, but by tendinous matter and fascia, and where the nature of the disease renders the opportunity of post mortem examination exceedingly rare, your com-mittee has been desirous to avoid that blameable haste in the decision of important questions which has too fre-quently given to plausible but ingenious methods of treatment a temporary reputation, to the abuse of public confidence and the injury of the profession, by granting to empiricism the weight and influence of great names.

"The instruments of Dr. Chase have effected the per-

manent and accurate retention of the intestines in every case of hernia observed by the committee, without material inconvenience to the patient, and often under trials more severe than are usually ventured upon by those who wear other trusses—trials which would be imprudent with any other apparatus known to the committee

"The committee are induced, by the foregoing conclusions, to recommend, in strong terms, the instruments of Dr. Chase to the confidence of the reference to the confidence of the reference of the refer

Dr Chase to the confidence of the profession, as the best known means of mechanical retention in hernia, and as furnishing the highest chances of radical cure.

"They have no hesitation in saying that, were they individually affected with this terrible disease, they would resort to this method of treatment, with the triple view of securing their comfort, safety, and ultimate chance o

REYNELL COATES, M. D., WM. ASHMEAD, M. D., ISAAC PARRISH, M. D., Committee.

"All must now admit of the radical cure of Hernia, nd that Dr. Chase's Trusses are decidedly the best yet invented to effect that object."-Southern Medical and Surgical Journal.

For the utility and excellence of these instruments, reference may be had to the principal physicians of this city, who are prepared to apply them. TODD'S Drug Store.

GENUINE BUFFALO OIL THE HAIR! THE HAIR! THE HAIR!

THE HAIR! THE HAIR!

THE greatest ornament to the human body is a splendid head of hair. It has recently been discovered that the genuine Buffalo's Oil is a covering remely for baidness, prevents the hair from coming off, promotes the growth, continues the luxuriance, and improves the beauty. It is far superior to any other animal or vegetable oil, and in case of fever, where the hair becomes dry and begins to fall off, there is no application more effectual in restoring its beauty and rendering it in a healthy state.

It is put up at a low price, (37 1-2 cents) that all classes can have access to it. None genuine unless put up in fla bottles, with HAIR OIL impossion, it will be signed by wm. Brown, 481 Washington, corner of

INTERESTING AND APPLICABLE TO THE AFFLICTED, WITH DISEASES OF THE STOMACH, OR NERVES, such as Dyspepsia either Chronic or Casual, under the worst symptoms of Restlessness; and believe it to be the best composition in use for the purpose intended.

D. D. HOWARD,
Exchange Hotel, New York.

Having made trial of Anderson's Composition in polishing Britannia ware, which we manufacture, we feel satisfied that it is a good article.

BROADMAN & HART,
Burling Slip, New York.

I have made use of Anderson's Paste and Powder, and find it a very valuable article, and do most cheerfully recommend it to persons wanting the article.

Or Casual, under the worst symptoms of Restlessness; Lowness of Spirits and general emaciation; Consumption, whether of the Lungs or Liver; Liver Affections; Jaundice, both Bititiary and Spasmodic; Costiveness; Worms, of every variety; Rheumatism, whether Acute or Chronic, together with Gout, Scrofula, Pains in the Head, Back, Limbs, and Side; Typus Fever, Scarlet Fever, Putrid Sore Throat, Fever and Ague, Spasmodic Palpitation of the Heart and Arteries, Nervous Irritability, Nervous Weakness, Hysterics, Tic Douloureux, Cramps, Female Obstructions, Heartburn, Headache, Cough, the Common or Humid, and the Dry or the Whooping; Asthma, Gravel, and Drops.

ping; Asthma, Gravel, and Drops.

The Blood has hitherto been considered by Empiricks and others, as the great regulator of the human system, and such is the devotedness of the adherants to that erand such is the devotedness of the adherants to mat erroneous doctrine, that they content themselves with the simple possession of this fallacious opinion, without enquiring into the primary sources from whence Life, Health and Vigor eminate, and vice versa, pain, sickness, disease and death. Not so with Dr. Hunt, whose extensive research and practical experience so eminently qualify him for the profession of which he has been one of the most useful members. He contends—and a moments reflection will convince any reasoning mind of the cor-rectness of his views—that the stomach, liver, and associated organs are the primary and great regulators of health, and that the blood in very many instances is dependent on these organs, and that unless medicine reaches THE ROOT OF THE DISEASE, the superficial anodynes usually prescribed, serve but as foils to cover the ravages deeprooted maladies. Under these convictions, at the expense of years of close application, the doctor has discovered a medicine whose searching powers are irresistible, and in prescribing, it is with knowledge of its being a radical cure in the various diseases already enumerated, even if applied in the most critical cases, but he does not present the search of the case, the doctor of the case of W. M. MORRISON'S enumerated, even it applied in the most critical cases, but he does not pretend to ascribe to Hunr's Botanic Oct. 12.

Hotel.

AVERLY NOVELS.—The cheapest edition ever published. A further supply just received—

Book and Stationary store, four doors west of Brown's but he does not pretend to ascribe to Hunr's Botanic Pills as upernatural agency, although from positive proofs within the knowledge of hundreds, he is prepared to show, that when every other earthly remedy has been given up, Hunr's Botanic Pills have never been known in applied in the most critical cases, but he does not pretend to ascribe to Hunr's Botanic Pills as upernatural agency, although from positive proofs within the knowledge of hundreds, he is prepared to show, that when every other earthly remedy has been given up, Hunr's Botanic Pills have never been known in the most critical cases, but he does not pretend to ascribe to Hunr's Botanic Pills as upernatural agency, although from positive proofs within the knowledge of hundreds, he is prepared to show, that when every other earthly remedy has been given up, Hunr's Botanic Pills have never been known as the pills of th to fail in effecting two very gratifying results. that of raising from the bed of sickness and disease those who have tested their efficacy, and thus amply rewarding Dr. Hunt for his long and anxious study to attain this perfection in the healing art. LEWIS JOHNSON, (Agent) Washington, D. C.

Aug. 8 THE CHRISTIAN BRAHMIN, or Memoirs of the Life, Writings, and Character of the Converted Brahmin, Babajee, including Illustrations of the Domestic Habits, Manners, Customs, and Superstitions of the Hin-Habits, Manners, Customs, and Superstitions of the Hindoos, a Sketch of the Decean, and Notices of India in general, and an Account of the American Mission a Alimednuyyur: by the Rev. Hollis Read, Americant Missionary to India. A few copies for sale by W. M. MORRISON, 4 doors West of Brown's hotel.

WE are called on to caution the public, the Drggists in particular, against purchasing from any traveller under whatever pretences they may be offered, any of riety of chme in the United States, Canadas, establishes them as the most ent medicine ever discovered. DR. EVANS' INVALUABLE MEDICINES, as their unprecedented success in the cure of Consumpas their unprecedented success in the cure of Consumption, Dyspepsia, Liver Complaint, Indigestion, Costiveness, Loss of Appetite, Paipitation of the Heart, Pain in the Head, Breast, Back and Limbs, Dizziness, Restlessness, and all diseases originating in the Stomach, Heart, Lungs, Liver, and the associate organs, &c., has caused a reckless Imposter, who it is ascertained, has been travelling through Pennsylvania, Marylan: Virginia, &c., to counterfeit and vend a deleterious mutation of EVANS' CAMOMILE AND APERIENT PILLS; and another imposter has introduced into Pennsylvania.

EVANS' CAMOMILE AND APERIENT FILLS; and another imposter has introduced into Pennsylvania, &c., a spurious article, purporting to be Paris' Soothing Syrup, for children when cutting their teeth—hoth of which are deleterious counterfeits. Therefore, in order to protect the public against the inroads of such impositions, and to secure them the benefit which his Ganning Medicines never fail in bestowing, he has caused Genuine Medicines never fail in bestowing, he h s caused the label of Evans' Camomile &c., Pills, " to be enthe label of Evans' Camomile &c., Pills, "to be entered according to an act of Congress."

A notice of which entry is printed on the labels on every bottle of the Genuine Pills, and he has caused the name of Dr. J. L. Paris to be stricken out of the label of his celebrated Soothing Syrup, for children when cutting their teeth, so that the label of the genuine syrup reads. "DR. WM. EVANS' SOOTHING SYRUP," an infallible remedy for the pain and sickness to which children ble remedy for the pain and sickness to which children are subject when cutting teeth tested and approved by thousands o imagness and burses, who have by its early application, not only prevented their children from suf-fering excruciating pain but in many instances rescued

CAUTION.

83-Be particular in examining the labels, and also in knowing that Dr. Evans never vends any of his medicines save through the medium of his resident agents, as advertised throughout the Union, or at the Western Office, Louisville, Ky., and his principel office 100 Chatham Street, New York, where wholesale orders will be promptly executed on the most liberal terms.

promptly executed on the most liberal terms.

OG-The public may rest assured that in every instance that comes within the knowledge of Dr. Evans, or any of his agents, where the Counterfeit Medicines are purchased or vended, he will give them the earliest public notice of the imposition. Already have proceedings both civil and criminal been instituted against several Druggists who have been detected, and their names will be laid before the public at an early date. THE BEST PROTECTION he can offer for the present is, to caution purchasers to obtain his Medicines from the purchasers to obtain his Medicines from the AGENTS ONLY.

LEWIS JOHNSON, Washington, D. C. C. CRUIKSHANK, Georgetown, D. C. BELL & ENTWISTLE, Alexandria, D. C.

DR. GOODE'S CELEBRATED FEMALE PILLS.

These Pills are strongly recommended to the notice of the Ladies as a safe and efficient remedy in removeing those complaints peculiar to their sex, from want of exercise, or general debility of the system, obstructions, suppresions, and irregularity of the menses; at the same time, strengthening, cleansing, and giving tone to the stomach and bowels, and producing a new and healthy action throughout the system generally. They create appetite, correct indigestion, remove giddiness and nervous headache, and are eminently useful in those complaints which distress females so much at the "TURN OF LIFE." They obviate costiveness, and counteract all hys-PILLS.
